EDUCATION

BSc In Software Engineering 05/2022 – 06/2026
Addis Ababa Science and Technology University Addis Ababa , Ethiopia

- CGPA - 3.44/ 4
- Relevant Coursework: Internet Programming, Operating System, Data Structures and Algorithms, Distributed System, Operating System, Object-Oriented Programming

PROFESSIONAL EXPERIENCE

Frontend engineer 07/2023 – 09/2023
Ministry of Innovation and Technology Addis Ababa, Ethiopia

- Recruitment & Employee Service Portal

Developed a full-stack recruitment platform with a team of 4 that streamlines job posting, application tracking, and candidate management, along with employee service features. Built responsive user interfaces and integrated backend APIs to improve hiring efficiency and internal service delivery.

Full Stack Dev 02/2026 – Present
Freelancing
Delivered custom web applications and frontend solutions for diverse clients, focusing on responsive design and performance. Collaborated directly with clients to gather requirements, implement features, and iterate based on feedback, ensuring timely delivery and high-quality results.

PROJECTS

Veritas — AI-Enhanced Online Examination Platform (Frontend Engineer) 04/2026 – 06/2026
React 19 · Vite · TanStack Query v5 · Zustand · Axios · Recharts · Framer Motion · Zod · React Hook Form

- Managed server state with TanStack Query v5 across 16 API service modules, co-locating 36 custom hooks by feature role for clean separation of concerns.
- Implemented real-time exam proctoring UI (face detection hooks, cheating score display, event log) integrated with a REST proctoring API.
- Achieved Lighthouse scores of 87 Performance / 98 Accessibility / 100 Best Practices / 91 SEO, with 40 ms Total Blocking Time and a perfect Cumulative Layout Shift of 0.
- Integrated Stripe and Chapa payment gateways via a provider-agnostic checkout flow and built plan selection UI, initiated checkout sessions through REST API, and handled redirect responses to the provider-hosted payment page.
- Developed a full billing dashboard displaying active plan, subscription status, next billing date and outstanding balance.

MiNT Jobs Job listing Platform 06/2025 – 08/2025
A modern job listing platform built with Next.js 15, React 19, and Tailwind CSS designed for the Ministry of Innovation and Technology to connect job seekers with opportunities.

- Next.js 15 App Router architecture
- TypeScript support
- Responsive, accessible UI with TailwindCSS
- Job search, filtering, and application flows
- HR team management section
- Modern UI/UX with reusable components
